

## 8 Day / 7 Night 'Islands of Baja's Pacific Coast' Freedive Itinerary

*This is a tentative itinerary that will be controlled by Mother Nature. Destinations, arrival and departure times may need to be adjusted accordingly.*

### **Day 1: Boarding and Departure**

**11:00am – 12:30pm** Boarding

**1:00pm** Departure

An afternoon of relaxation, preparing your equipment all punctuated by fantastic food and great ocean scenery!

### **Day 2: Isla San Martin, Isla Geronimo or Sacramento Reef area**

**7:00 – 10:00am** Arrival to Isla San Martin, Isla Geronimo or Sacramento Reef. You'll get a few hours in the water searching for yellowtail, white seabass, barracuda and lunger kelp bass.

**12:00 – 1:30pm** Lunch is served around the dive schedule as it will be for the entire week.

**4:00pm** Time to head south. You and the skiffs will be retrieved with departure for Islas San Benito or Isla Cedros.

**7:00 Dinner.** Come and get it!!!

### **Days 3 - 6: Islas San Benito and possibly Isla Cedros**

San Benito is legendary for its schools of yellowtail and white seabass. Isla Cedros...well think big. The water is typically green but the fish are big! 30 – 50 pound yellowtail are not uncommon, large white seabass roam its extensive kelp forests and the top side scenery is some of the most beautiful along Baja!

Your dive day will typically start around 8:00am with a break for lunch at 12:00pm and then an afternoon of diving with dinner at 7:00pm.

**6:30pm** Hors d' oeuvres

**7:00pm** Dinner

**After dinner on day 6 we will head north toward Isla San Martin or a coastal destination.**

### **Day 7: Isla San Martin, Baja coast north of Isla San Martin or a day of offshore fishing**

If the coastal conditions are not conducive to good diving we will opt to spend the day offshore in search of tuna, dorado and yellowtail. If the sea is friendly you may have the opportunity to experience true blue water diving on free floating kelp paddies!

### **Day 8: San Diego**

We'll arrive in port 6:00 – 7:00am with debarkation no later than 9:00am.
